SUMMARY

Cybersecurity student at Edmonds College with a strong foundation in networking, systems, and security, built through research and hands-on operational experience. Skilled in incident coordination and structured troubleshooting across academic and high-volume environments. Applied analytical expertise to security-focused projects, including machine learning–based intrusion detection and web deployment.

EDUCATION

- **Associate of Technical Arts in Cybersecurity** | Edmonds College [Lynnwood, WA], Expected Aug 2026
- **Bachelor of Science and Engineering, Information Engineering** | Kanto Gakuin University [Yokohama, Japan], Apr 2020 – Mar 2024

PROFESSIONAL EXPERIENCE

Housing Maintenance & Operations Coordinator, | Edmonds, WA

Edmonds College | Jan 2026 – Present

- Conduct operational inspections to ensure facility safety and service continuity
- Triage and escalate resident incidents to management and external vendors
- Coordinate technical issue resolution with third-party providers
- Maintain compliance standards and operational readiness

Lead International Mentor | Edmonds, WA

Edmonds College | May 2025 – Present

- Supported 30+ international students per quarter with academic and campus system navigation
- Coordinated 2+ monthly engagement events to improve student engagement and retention
- Provided structured troubleshooting and documentation support for student-related issues

Guest Service & Operations Supervisor | Japan

Izumi Tenku no Yu – Haneda Airport | Feb 2024 - Oct 2024

- Managed high-volume front desk operations serving ~500 customers daily
- Supervised a 15-member team and resolved escalated service issues
- Maintained facility systems, safety, and operational standards

Teaching Assistant (AI, Java, Network Systems) | Japan

Kanto Gakuin University | Apr 2022 – Sep 2023

- Facilitated labs in AI, Java, and network configuration
- Assisted with system troubleshooting and grading

Undergraduate Research | Japan

Kanto Gakuin University | Sep 2022 – Mar 2024

- Conducted comparative research on ML-based intrusion detection systems using the CICIDS2017 dataset
- Implemented and evaluated Naive Bayes, SVM, Decision Tree, and k-NN models
- Analyzed Precision, Recall, and F1-score to identify high-recall detection models for malicious traffic

TECHNICAL PROJECTS

Machine Learning-Based Intrusion Detection Prevention Research

Kanto Gakuin University | Sep 2022 – Mar 2024

- Evaluated ML-based intrusion detection models using the CICIDS2017 dataset
- Implemented Naive Bayes, SVM, Decision Tree, and k-NN under controlled conditions
- Assessed detection performance using Precision, Recall, and F1-score metrics

Japanese Student Association – Official Website

Edmonds College | Nov 2025 – Present

- Designed and deployed a responsive multi-page website
- Integrated Google Sheets API for automated data display
- Applied version control and structured navigation for maintainability

LEADERSHIP & VOLUNTEER EXPERIENCE

President – Japanese Student Association | Edmonds, WA

Edmonds College | Nov 2025 – Present

- Lead executive board operations for a campus cultural organization
- Plan and execute monthly cultural and language exchange events
- Increase student participation through structured outreach and cross-campus collaboration

Head of Media & Communications – Housing Ambassadors

Edmonds College | Feb 2026 – Present

- Lead a 3–4 member communications team within a 20-member organization
- Develop structured workflows and outreach strategies
- Analyze engagement trends to improve communication effectiveness

Programming & Operations Lead – International Coffee House

Edmonds College | Jan 2025 – Present

- Co-lead weekly intercultural events for a 20-member organization
- Facilitate programming and oversee logistics and volunteer coordination
- Implement structured planning systems that increased event frequency and engagement

SKILLS

Networking & Systems:

TCP/IP, VLANs, routing & switching, AD, Linux

Cybersecurity & Monitoring:

SIEM, IDS/IPS, log analysis, incident response

Programming & Tools:

Python, java, Git, Wireshark, Splunk, VirtualBox

Professional Skills:

Leadership, troubleshooting, customer support

CERTIFICATIONS

- **CCNA: Enterprise Networking, Security & Automation** | Cisco (Sep 2025)
- **IT Specialist – Cybersecurity** | Certiport (Dec 2025)
- **Cyber Threat Management** | Cisco (Sep 2025)
- **AI Data Security Specialist (2025)** | Proofpoint (Jan 2026)
- **Generative AI for Cybersecurity Professionals** | IBM (Jan 2026)
